

Gotive H41 - Carrying Cases

Accessories

Functional

- **Robust case** made of heavy-duty leather
- **Access to all functions** of Gotive H41 while the device is in the carrying case (openings for bar code reader, IrDA, microphone, speaker, and all Action Keys)
- **Variable working position** (landscape/portrait) thanks to 4 metal rings for fastening the detachable shoulder strap
- **Secure position and simple insertion & removal** of the device in/from the carrying case by means of an easy zip-up system
- **Easy access** to the display by means of a protective display cover flap
- Solid display cover flap with position-support strap to **adjust and secure the position** of the opened cover and also use it for example as a sun visor
- Two safe **stylus holders** for additional pen-shaped styluses
- **Easy fastening** the carrying case to a belt using a belt clip

Basic

- **Robust case** made of ballistic nylon
- 2 metal rings for fastening the detachable **shoulder strap**
- **Ability to fasten/unfasten** the carrying case to a belt using a metal belt clip
- **Velcro** strip on the carrying case cover preventing the accidental falling out of the handheld
